

Central Coast Soil Hub Newsletter

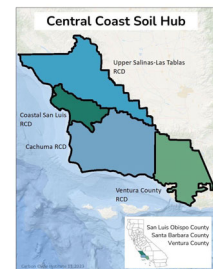

Fall 2026

In This Issue:

- Grazing Planning workshop in the Carrizo Plains
- Over \$4 million available for sustainable ag projects in the Central Coast
- Ag Order workshops and resources
- Updates on webinars, classes, and new grant programs
- and much more!

Regional Updates

The Central Coast Soil Hub spans three counties and includes four Resource Conservation Districts. The following updates are relevant to farmers, ranchers, and other land managers throughout this entire region.

Upcoming Events

Registration NOW Open!

October 19th-20th, 2026

Two-Day Grazing Planning Workshop

From theory to practice. Learn the WHY and HOW behind planned grazing management to begin managing for what you want.

Hear from local ranchers on how they have implemented and benefited from these practices.

Instructors:

Richard King, Michael Dennis, Grant Johnson & Guest Speakers

Cost: \$100

Location: Carrizo Plains

Registration Includes:

- ✓ Lunch both days
- ✓ BBQ Dinner
- ✓ Two Books: Holistic Management & Holistic Management Handbook
- ✓ Free followup sessions

****Camping Available on Site!**

BROUGHT TO YOU BY:

- ✓ Central Coast Soil Hub
- ✓ Carrizo Cattle Company
- ✓ The Nature Conservancy

Carrizo Cattle Ranch

One Week Left to Register - Grazing Planning Workshop

Oct. 19 - 20, Carrizo Plains, \$100

The Central Coast Soil Hub is pleased to invite you to join us for a two day **Grazing Planning Workshop**, Oct. 19-20th, in the Carrizo Plains.

In this workshop you will learn the WHY and HOW behind planned grazing management to begin managing for what you want.

We will focus on creating the best possible grazing plan for the coming season without having a wreck. Here you will learn the tools & planning for profitable, regenerative grazing management. Time will be spent learning to read the landscape and in-field indicators of rangeland health and developing a grazing plan that fits your context and goals.

Attendees will walk away with the tools and step-by-step instructions to write their own holistic grazing plan - **You will learn each step by doing it yourself!**

Day one of the workshop will be spent in the field at the Carrizo Ranch, learning from rancher Michael Dennis about how he has used his grazing plan to increase forage production, improve soil health, and run a profitable operation. Day two will be spent next door at the Nature Conservancy's Las Piletas Preserve, where we will apply what we learned in the field to start writing a real grazing plan.

Registration is \$100 and includes lunch both days, dinner on the 19th, two reference books (*Holistic Management* and *Holistic Management Handbook*), plus a follow up consultation and personalized feedback to help you complete your plan.

For questions about the event, please reach out to Grant Johnson (gjohnson@coastalrcd.org). We hope to see you there!

Sustainable Ag Expo

Nov. 10 - 11, San Luis Obispo, \$545

The Sustainable Ag Expo is coming to San Luis Obispo next month. Join winegrowers, ag professionals, and experts from leading institutions like UC Davis and Cornell to share what's working, ask questions, and learn directly from others. Presented by Vineyard Team, this event is a great opportunity to learn about sustainable vineyard practices and connect with others in the industry.

Webinar: New Agritourism Grant from Airbnb and AFT

Oct. 14 and Nov. 13, Zoom, FREE

Airbnb and the American Farmland Trust are launching a new [Farm to Stay Grant](#) Program, with applications opening next month. This grant will provide up to \$10,000 to farmers and ranchers who are creating or expanding farm stays and other agritourism experiences. In preparation for the application window, there will be two informational webinars on **Oct. 14th** and **Nov. 13th**.

Farm Marketing Webinar Series from CAFF

Starts Oct. 13th, 3:30 - 4:30, Zoom, FREE

Community Alliance with Family Farmers is launching a new workshop series. Farm Marketing That Works is a free five-part workshop series for farmers who have already started marketing their businesses and are ready to refine and grow what they've built. Through hands-on audits

and practical activities, you'll assess your current marketing to identify what's working and what needs attention, and leave with concrete steps you can take to strengthen your marketing and grow your business.

Workshop topics will include Marketing audits, goals, and measuring success; Branding and understanding your audiences; Website health and organic SEO; Email marketing and social media; and Strategies for growing your reach.

Plus, **enrolled farmers who attend at least three sessions will receive free advising sessions with marketing consultant Anna Larsen of Root Cellar Consulting.** These sessions give you dedicated time to dig into your farm's specific marketing questions and challenges.

Workshops begin Oct. 13th and run every Tuesday from 3:30-4:30 through Nov. 10th.

Williamson Act Webinar from Ca. Rangeland Trust "Keeping the Land in Working Hands: The Williamson Act & California Property Taxes"

Nov. 4, 11:00, Zoom, FREE

The California Rangeland Trust will be hosting a free webinar on November 4, 2026, exploring important property tax and land-use considerations for California's agricultural and rangeland families. The webinar will cover the Williamson Act, Proposition 13 and 19, and what these programs may mean for property assessments, ownership changes, and transferring land between generations. It will also highlight key considerations for families planning for the long-term future of their ranches.

[Click here to register.](#)

California Meat Summit

Oct. 15 - 16, Siskiyou County. \$150

UCANR, the Siskiyou Farm Co, and Siskiyou County Economic Development invite you to the North Fork California Meat Summit - a gathering of ranchers, processors, butchers and industry partners committed to strengthening California's meat economy. The summit includes ranch tours, educational sessions, panel discussions, networking opportunities, and a farm dinner experience.

UC Environmental Stewards Conference

Oct. 9 - 11, UC Santa Barbara

The 2026 University of California Environmental Stewards Conference will take place in Santa Barbara, on the beautiful campus of UC Santa Barbara. Engaging presentations,

hands-on workshops and field trips will highlight local natural history, culture and the environment, with a focus on climate change and climate resilience work in California and participatory science, equity, inclusion and justice in conservation efforts. The conference is open to all individuals with an interest in building a more equitable, resilient and sustainable future for California.

Resources and Updates

Soil Hub Launches New Rangeland Events Database

The Central Coast Soil Hub recently launched a new [Rangeland Educational Events Database](#). This database compiles workshops, webinars, professional development courses, peer-to-peer gatherings, conferences and other events that are intended to help ranchers, graziers, and other rangeland managers improve the profitability and sustainability of their operations.

The database is primarily focused on events within San Luis Obispo, Santa Barbara, and Ventura Counties, but includes additional events from throughout California and beyond. There is also an optional calendar view (which can be [added by Google Calendar users](#)), and a form for submitting new events.

The database includes events that are open for registration, as well as events that are in development (so that you can plan ahead) and past events (so that you can reach out to event organizers if there is a topic you would like to see repeated).

[Click here to view the database](#)

Resources From National Center for Appropriate Technology

The National Center for Appropriate Technology compiles a wide variety of resources and tools to support sustainable and regenerative agriculture. For example, they maintain the [Sustainable Pest and Weed Control Database](#), a user-friendly tool for farmers looking for pest control options which are generally softer on the environment and beneficial species. You can search for information about how to control a specific pest, or just for information about specific active ingredients, formulations, and trade names.

Browse the [Topics page](#) for resources on other subjects. Everything from business management to marketing, soil health to renewable energy, is covered. And if you can't find what you're looking for, try the "Ask an Ag Expert" helpline.

Business Mentorship and Other Resources from SCORE

SCORE is a nonprofit organization that manages a network of over 10,000 volunteer business mentors who help entrepreneurs start, grow, and sustain businesses. They offer mentorship, consultations, and other resources that can help you navigate your business management needs. Their network includes volunteers who specialize in agricultural businesses.

Funding Opportunities

USLTRCD and Partners Awarded \$4.3 Million in Incentive Funding for California Farmers and Ranchers

Opens soon - stay tuned!

The Upper Salinas-Las Tablas Resource Conservation District is excited to announce that they have been awarded funding to bring technical and financial support to producers and ranchers in our district and four additional districts across the state. This is part of a USDA Accessing Markets for Producers (AMP) Grant.

What producers and ranchers can expect:

- \$4.35 million in financial incentives for adopting conservation practices
- Free, hands-on technical assistance and conservation planning support
- Access to a regional Equipment Library Program that includes reduced-cost access to equipment like biochar kilns, compost spreaders, and a keyline plow
- New ways to sell what you grow or raise, including a farm stand in San Luis Obispo and an online direct-to-consumer marketplace
- Bilingual outreach materials and paid peer-to-peer workshops
- A \$500 enrollment bonus, plus training stipends up to \$400 per producer

We're proud to partner with Coastal San Luis, Cachuma, Ventura, and Glenn County RCDs, along with Community Environmental Council, City Farm SLO, and Cal Poly to make this happen. **If you're a producer or rancher in one of these districts, watch for more details soon on how to get involved!**

If you'd like to be notified when applications open, reach out to your local RCD. Include the phrase "Interested in AMP Funding" in the subject line or comment box.

Upper Salinas-Las Tablas RCD (northern coastal and inland areas of SLO County)
Coastal San Luis RCD (southern coastal areas of SLO County)
Cachuma RCD (Santa Barbara County)
Ventura County RCD

Two other organizations also received funding through this program and can support the implementation of sustainable agricultural projects. While they are not focused specifically on the Central Coast, their funding is open to farmers throughout California. Visit the project pages for **Elevated Foods** and the **International Fresh Produce Association** to learn more and sign up

New Agritourism Grant from Airbnb and American Farmland Trust

Up to \$10,000 available - opens late Nov.

Airbnb and the American Farmland Trust are launching a new Farm to Stay Grant Program, with applications opening next month. This grant will provide up to \$10,000 to farmers and ranchers who are creating or expanding farm stays and other agritourism experiences. In preparation for

the application window, there will be two informational webinars on Oct. 14th and Nov. 13th. The grant itself should open in late November.

[Click here for more information.](#)

NRCS California's Conservation Funding Assistance Deadline for Producers: Nov, 6th!

NRCS has announced the ranking deadline for federal assistance opportunities for agricultural producers, including through the Environmental Quality Incentives Program (EQIP), the Conservation Stewardship Program (CSP), and the Agricultural Conservation Easement Program (ACEP). While NRCS accepts applications for these programs year-round, interested applicants should apply no later than November 6, 2026 to be included in the application cutoff period. Any applications submitted after the deadline will be included in next year's ranking period.

[Click here for more information.](#)

New Grant Supports Rancher-Led Learning Projects

Up to \$5000 available from the California Grazing Lands Coalition

CalGLC recently launched the "California Producer's Grant" to support ranchers and graziers who want to host producer-led learning opportunities. CalGLC encourages events for ranchers to share knowledge with one another and with the public about grazing lands stewardship and the continued viability of ranching. [Click here to learn more and apply.](#)

WSARE Grant Supports Farmer-Led Research Projects

Closes Oct. 28

The Western SARE Farmer/Rancher Research & Education Grant Program focuses on advancing on-farm sustainability solutions by funding innovative producer-driven research and outreach. With a Farmer/Rancher Grant, a producer and a technical advisor work together to develop a project (1-3 years in scope) that conducts both research and outreach on a sustainable agriculture topic. Up to \$35,000 is available to support these projects. [Learn more about the program here.](#)

3C-REN Agriculture Energy Solutions Program

Tired of watching your electricity bills climb and not knowing what you can do to lower it? The Tri-County Regional Energy Network (3C-REN) is here to help. 3C-REN offers no-cost technical assistance designed specifically for growers and agricultural operations. Through the **Agriculture Energy Solutions program**, you can get a clear picture of your energy use with a utility bill analysis, a simple first step that shows where savings may be hiding. Want a deeper dive? A facility assessment provides customized recommendations for energy-saving opportunities across your site. Worries about the upfront cost of upgrades? We can connect you with incentive programs that may help cover the cost. [Click here to learn more.](#)

Funding and Equipment Available Through USFWS

The US Fish and Wildlife Service has funding and equipment available to help Central Coast landowners with voluntary conservation projects. The “Partners for Fish and Wildlife” Program provides free technical and financial assistance for projects that improve wildlife habitat on private lands. Restoration projects are customized to address each landowner’s unique needs and Partners Program biologists help plan, manage, implement, and monitor these restoration projects. Participating landowners continue to own and manage their land.

The Partners Program also has a no-till seed drill available to private landowners and other conservation partners. The drill is available for free, even if you do not participate in USFWS funding programs.

[Click here to learn more about the Partners Program](#) and [click here for information about the seed drill](#).

Find Funding Opportunities with the Farmer Funding Database

The [Farmer Funding Database](#) is now available from the Central Coast Soil Hub! This document lists funding opportunities for farmers and ranchers on the Central Coast and will be updated periodically as new opportunities become available. Funding opportunities include project planning and implementation, infrastructure and equipment purchases, educational scholarships, and more.

San Luis Obispo County Updates

Coming Soon: Creek Ready SLO Program

The Coastal San Luis RCD and the Upper Salinas-Las Tablas RCD, with nonprofit partner Creek Lands Conservation, have been approved to initiate an El Nino Preparedness Technical Assistance program funded by San Luis Obispo County. Under the program, stream-adjacent landowners across the county can request a technical assistance site visit and receive site specific recommendations for hazard reduction, emergency permit compliance guidance, and post-storm recovery support. The program is under development and additional details will be released soon. Stay tuned!

Ag Order Workshop: Irrigation and Nutrient Management

Nov. 18, 10:00 & 1:00, San Luis Obispo, FREE

Preservation Inc is hosting their annual fall workshops, which will focus on Irrigation and Nutrient Management (INM) requirements of the Ag Order. The workshops will cover the INM section of the Farm Plan, annual reporting considerations (like calculations, conversions, and recordkeeping), and provide a chance to receive one-on-one support. The workshop for San Luis

CSLRCD Wildfire and Forestry Project Interest Form

The Coastal San Luis RCD wants to hear from land managers interested in wildfire resilience and forest restoration projects. The RCD has a new Project Interest Form that land managers can use to suggest project ideas. Information submitted through this form will help the RCD identify potential projects, prioritize future funding opportunities, and connect interested landowners and land managers with technical assistance and grant opportunities as they become available.

Note that submitting this form **does not** guarantee funding or project implementation, but it allows the RCD to better understand community needs and contact you if opportunities arise

[Click here to complete the project interest form.](#)

Provide Your Feedback on Proposed Waste Processing Facility

The Upper Salinas-Las Tablas RCD has partnered with the US Department of Energy to look at the feasibility of a sludge management and biofuels production process suitable for small communities. The RCD is seeking feedback from land managers on how you currently use—and think about—products made from treated waste. Your input will help us better understand local needs, opportunities, and barriers to using these products on the Central Coast.

[Click here to take the survey](#) or [click here to learn more about the proposed project](#).

Fall Volunteer Day at Willow Creek Conservancy

Oct. 24, 9:00 - 12:00, Paso Robles

Join the Upper Salinas-Las Tablas RCD a Fall Volunteer Day at Willow Creek Conservancy! We'll be working together to add native plants to our hedgerow at Willow Creek Conservancy. Native hedgerows provide important benefits to working lands across our region, creating living borders that support biodiversity, improve soil health, and enhance crop production.

Please bring layers, sturdy shoes, and a water bottle. Snacks will be provided by your local Resource Conservation District! All ages are encouraged to attend. Tools and gloves will be provided.

Please RSVP here so we can account for snacks and staff support. For more information, email the ULTRCD Conservation Project Manager at Hailey@US-LTRCD.org.

Plants have been generously provided by the Xerces Society through their Pollinator Habitat Kit Program. This project is made possible with funding from the Wildlife Conservation Board.

SLO County Farm Bureau 104th Annual Members Meeting

Oct. 20, 4:30 - 8:00, Templeton, \$44.52

The SLO County Farm Bureau's 104th Annual Members Meeting is coming up this month, and you are invited to join for an evening celebrating agriculture, Farm Bureau members, and the incredible agricultural community we are fortunate to have here in San Luis Obispo County.

The evening will include dinner, local wine from JUSTIN, awards, community, and an opportunity to connect with fellow Farm Bureau members and agricultural supporters from throughout the county. Purchase your tickets today and reserve your seat! [Purchase online here](#).

Rancher -to- Rancher

Register Today

The **Central Coast Soil Hub**, **RMR Ranch**, and **Soil Carbon Coalition** are hosting a one-day Rancher-to-Rancher gathering in Ojai this November. These events connect ranchers, land managers, and others interested in land stewardship through shared experience and hands-on learning. We'll focus our discussion on grazing management for ecosystem health and resiliency and get to showcase new technology such as Virtual Fence.

Coffee, snacks, and water will be provided - please bring a reusable water bottle and a camp chair. We plan to be outside as much as possible, so plan accordingly.

Free optional lunch will be served after the event.

This is a free event, however registration is required. Register at OjaiR2R.eventbrite.com

QUESTIONS? PLEASE CONTACT GRANT JOHNSON AT GJOHNSON@COASTALRCD.ORG

Rancher to Rancher: Ojai, with RMR Ranch

Nov. 6, 9:00 - 2:00, Ojai, FREE

The Central Coast Soil Hub invites you to join the us for our first Ventura County Rancher-to-Rancher event, at the RMR Ranch in Ojai. Connect with fellow ranchers and land managers, discuss challenges and opportunities of ranching, and engage in soil health and grazing management demonstrations. We'll focus our discussion on grazing management for ecosystem health and resiliency and get to showcase new technology such as Virtual Fence. Participants

will be encouraged to share their experiences and strategies, as well as successes and lessons learned. Bring your questions and curiosity.

Coffee, snacks, and water will be provided - please bring a reusable water bottle and a camp chair. We plan to be outside the whole day so plan accordingly.

After the event concludes, there will be an optional lunch from 1:00-2:00. This will be a great chance to get to know each other and discuss questions and lessons learned from earlier in the day. Please let us know on your registration form if you plan to attend this optional lunch.

This event is FREE, but registration is required. [Click here to register.](#)

Interested in attending more Rancher-to-Rancher gatherings? There will be other gatherings at TomKat Ranch in Pescadero ([Nov. 4th](#)) and Seavey Ranch in Napa County (Nov. 10th - more information to come).

Agricultural Water Programs from VCRCD

The Ventura County RCD has a variety of programs and resources available to growers in the county, including:

- **Irrigation Evaluations** – VCRCD will evaluate your irrigation system to help identify any deficiencies.
- **WETA** – The Water Efficiency Technical Assistance program offers free irrigation evaluations, pump tests, suggestions for best nutrient management practices, and limited NIM stations as seen in IIMRLN.
- **AEWQA** – The Agricultural Environmental Water Quality Assistance program incentivizes the implementation of sediment, nutrient, and irrigation management practices on ag land.
- **AMPP** – Through the Agricultural Management Practice Plans program VCRCD can write Management Practice Plans for growers in Ventura County who have chosen Track 2 compliance for the Ag Order.

[Click here for information about these programs and resources.](#)

The **Ventura County Agricultural Irrigated Lands Group** provides additional resources and support for growers complying with Ag Order requirements. You can view their recent presentation from the AgriTech Fair ("[Understanding TMDL Requirements: Current Status, Newly Triggered Areas, and What's Next](#)") or a [map and summary table](#) of RAs subject to TMDL Discharge Limitations and Notification Status (see where TMDL requirements have been triggered, the constituent(s) involved, and notification status).

[Visit the VCAILG website for more information.](#)

We Want to Hear From You!

The Central Coast Soil Hub was created to serve the local agriculture community and to support resilient and sustainable agricultural operations. To do this well, we need to know what farmers and ranchers in the Central Coast *actually* want and need. We are conducting a survey to understand how we can best meet the needs of all agricultural producers on the Central Coast. This survey is anonymous, so please answer honestly.

[Take the Survey Here.](#)

Thank you for your participation and feedback!
